

August 2008

Dear Sunoco retiree:

Delta Dental is pleased to have been selected by Sunoco to offer and administer a dental plan for Sunoco retirees with benefits comparable to those offered to active employees.

Delta Dental will fully manage this voluntary program, which is 100 percent retiree paid. It is important to note that Sunoco is providing access to this group dental coverage through Delta Dental but will have no administrative responsibilities for managing the plan. Interested retirees should contact Delta Dental's customer service directly at 800-932-0783 with questions about the retiree dental plan.

The retiree dental plan offers you comprehensive coverage with opportunities to save money on your dental services. Delta Dental also has the largest network of dentists in the country, which makes it easy for you to find a dentist who can save you money. With three out of four dentists participating with Delta Dental, chances are your dentist is already a Delta Dental dentist.

You are free to visit any dentist you want and receive benefits, but you likely will save most when you visit a Delta Dental dentist.

With the retiree dental plan, you'll enjoy significant coverage for many common dental procedures:

- **Diagnostic and preventive services** – including two cleanings and exams a year – won't cost you anything when you go to a Delta Dental dentist.
- **Fillings, denture repairs, root canals, gum treatment and oral surgery** are covered at 80 percent of Delta Dental's discounted fees when you go to a Delta Dental dentist. That means, your out-of-pocket costs likely will be less when you receive services from a Delta Dental dentist.
- **Crowns, inlays, bridges, dentures and implants** are covered at 50 percent of Delta Dental's discounted fees.

To take advantage of this new benefit for Sunoco retirees and begin saving on your dental care, enroll now with the enclosed application. You will have 60 days from the date of this letter to enroll in the dental plan. Please refer to the enclosed enrollment form for details on how to enroll and the effective date of your coverage.

Sincerely,

Delta Dental
